

BATIK 3.5

Your kit contains 6 x 3 ½" Batik squares and 1 x (3 ½" x 9½") rectangle.

Join 3 squares in a row. Do this again with the remaining 3 squares.

Join the 2 rows (nesting the seams, and pressing the long middle seam open) to make a 3 x 2 rectangle as per diagram 1.

Add the rectangle to a long edge of your pieced rectangle as per diagram 2. Press this seam towards the plain rectangle

DO NOT TRIM THE BLOCK.

PLEASE MAINTAIN A STRICT ¼ " SEAM ALLOWANCE THROUGHOUT.

(consider using the CQ seam allowance guide) Well done on your ¼" seam allowances, as the returned blocks look fabulous!

CQ BOM TIP - PRESSING

After pressing your seams (in the suggested direction) on the back of the block, flip the block over. Press again from the front to ensure that your seams are flat, and there are no pesky little folds along the seam lines. It's the little things that count, and these can make a surprising difference to the finished size of the block.
