SKILLS

I have been addicted to patchwork for over 30 years and have been teaching since the early 90's! I enjoy having a relaxed and engaged class, and I love applique and quilting in all its forms! I am passionate about encouraging beginner quilters especially, with their free machine quilting, and machine applique! I have fun playing with different tensions, both through the needle and the bobbin! I enjoy using decorative threads to achieve different looks in applique.

WORKSHOPS

- **Introduction to Applique Techniques** 1 Day - anyone who wants to be creative with applique and learn techniques and use different threads.
